STANDARD ORTHO MOSAIC PRODUCTS

Pictometry standard ortho mosaic products are produced through automated mosaicking processes that incorporate digital elevation data with individual Pictometry ortho frames to create large-area mosaics on an extremely cost-effective basis. Because these products are produced through automated processes, rather than more expensive manual review and hand-touched corrective processes, there may be inherent artifacts in some of the resulting mosaics. While Pictometry works to minimize such artifacts, the Pictometry standard ortho mosaic products are provided on an 'AS IS' basis with respect to visible cutlines along mosaic seams resulting from the following types of artifacts:

- Disconnects in non-elevated surfaces generally caused by inaccurate elevation data;
- Disconnects in elevated surfaces (e.g., roadways, bridges, etc.) generally caused by elevated surfaces not being represented in the elevation data;
- Building intersect and clipping generally caused by buildings not being represented in the elevation data;
- Seasonal variations caused by images taken at different times during a season, or during different seasons;
- Ground illumination variations caused by images taken under different illumination (e.g., sunny, high overcast, morning light, afternoon light, etc.) within one flight day or during different flight days;
- Single GSD color variations caused by illumination differences or multiple-aircraft/camera captures;
- Mixed GSD color variations caused by adjacent areas being flown at different ground sample distances (GSDs); and
- Water body color variations caused by multiple individual frames being used to create a mosaic across a body of water (e.g., lakes, ponds, rivers, etc.).

Other Pictometry products may be available that are less prone to such artifacts than the Pictometry standard ortho mosaic products.

WITNESSETH:

NOW THEREFORE, in exchange of the mutual covenants made herein, and for other good and valuable consideration exchanged between the parties, the receipt and sufficiency of which is hereby acknowledged, including but not limited to the inducement of County to enter into the Contract as modified by this LGR, the parties agree as follows:

PART A: SPECIFIC AMENDMENTS TO CONTRACT PROVISIONS

1. At the time of the signing of the Contract, County only has approval for First Project as identified in Section A. 7. Contingent Funding/Non-Appropriations Clause: Notwithstanding anything to the contrary within the Contract or this LGR, all financial obligations of the County under the Contract are dependent upon, and subject to, the continuing allocation of funds by the County Board of Commissioners for such purpose, and terms for non-appropriation of funds are located with Paragraph 3 of Section C Non-Standard Terms and Conditions of the Agreement.
