

2026 Census Test

The 2026 Census Test will help improve how everyone is counted in the next census.

Your community has been selected to participate. The 2030 Census results will shape your community for the next decade—and a successful 2026 Census Test is a key step.

Starting in March, you can respond online, by phone, or by mail. In some areas, census takers will visit homes to count people in person.

Your response helps build a better census for the future.

We're testing improvements to:

- How people respond on their own.
- How we collect data in person.
- How we process the information we collect.
