<b>Projected Total Budget for JCPS Projects</b>	<b>\$65,200,187</b>

Chairman Letson stated his biggest question was about the allocation of \$30M towards the projects with a total number of \$65M. Based on what they were looking at last year, it seemed they had underestimated what was needed.

Dr. Ayers stated they could basically put the Bus Garage on the back burner. That would be \$5.8M where she could see a hold. That would be her first recommendation.

General discussions were held.

Dr. Ayers stated the Smoky High and Blue Ridge projects may be phased. She thought it was important for the Boards to have conversations as this was not what they expected. Where could they cut or phase for more palatable costs. They asked for track restrooms and a small concession to be an alternate. They also asked for a stage at Fairview as an alternate. At Blue Ridge the greatest need was a cafeteria, but the greatest want was a new gym.

Mr. Jamison stated there could potentially be ways to decrease costs at Blue Ridge.

General discussions were held.

Chairman Letson stated this was a great start. He believed all these projects were needed. It would be how would they find the money. It would be a balancing act.
