1. Public Survey Results

A public survey was compiled by JCRPD and Equinox Environmental to help quantify public comments regarding the current status and future needs of the Recreation and Parks Department. The survey consisted of 20 questions and was distributed via an online survey tool, SurveyMonkey®. Paper copies of the survey were also made available and entered electronically by JCRPD staff. A total of 763 surveys were completed from October 31 to December 12, 2012, approximately double the amount completed for the 2005 Master Plan. The majority of the surveys were completed by residents of the District of Cullowhee (40.6%), followed by the Districts of Sylva/Webster (37.9%), Dillsboro/Qualla (12.6%), and Cashiers/Glenville (8.9%), respectively.

Several figures are shown that convey the charted responses to several key questions pertaining to existing services and facilities, proposed services and facilities, and support of funding. Over 90% of participants perceive the need for new recreation facilities for Jackson County as extremely important or important. Select questions from the survey are charted below relative to the responses in three figures (Figure 1.1-Figure 1.3).

Article 3.

Hazardous Recreation Parks Safety and Liability.

§ 99E-21. Purpose.

The purpose of this Article is to encourage governmental owners or lessees of property to make land available to a governmental entity for skateboarding, inline skating, or freestyle bicycling. It is recognized that governmental owners or lessees of property have failed to make property available for such activities because of the exposure to liability from lawsuits and the prohibitive cost of insurance, if insurance can be obtained for such activities. It is also recognized that risks and dangers are inherent in these activities, which risks and dangers should be assumed by those participating in the activities. (2003-334, s. 1.)

§ 99E-22. Definitions.

The following definitions apply in this Article:

- (1) Governmental entity. –
 - a. The State, any county or municipality, or any department, agency, or other instrumentality thereof.
 - b. Any school board, special district, authority, or other entity exercising governmental authority.
- (2) Hazardous recreational activity. – Skateboarding, inline skating, or freestyle bicycling.
- (3) Inherent risk. – Those dangers or conditions that are characteristic of, intrinsic to, or an integral part of skateboarding, inline skating, and freestyle bicycling. (2003-334, s. 1.)

§ 99E-23. Duties of operators of skateboard parks.

(a) No operator of a skateboard park shall permit any person to ride a skateboard therein, unless that person is wearing a helmet, elbow pads, and kneepads.

(b) For any facility owned or operated by a governmental entity that is designed and maintained for the purpose of recreational skateboard use, and that is not supervised on a regular basis, the requirements under subsection (a) of this section are satisfied when all of the following occur:

- (1) The governmental entity adopted an ordinance requiring any person riding a skateboard at the facility to wear a helmet, elbow pads, and kneepads.
- (2) Signs are posted at the facility affording reasonable notice that any person riding a skateboard in the facility must wear a helmet, elbow pads, and kneepads and that any person failing to do so will be subject to citation under the ordinance under subdivision (1) of this subsection. (2003-334, s. 1.)

§ 99E-24. Duties of persons engaged in hazardous recreational activities.

(a) Any person who participates in or assists in hazardous recreational activities assumes the known and unknown inherent risks in these activities, irrespective of age, and is legally responsible for all damages, injury, or death to himself or herself or other persons or property that result from these activities. Any person who observes hazardous recreational activities assumes the known and unknown inherent risks in these activities, irrespective of age, and is legally

responsible for all damages, injury, or death to himself or herself that result from these activities. No public entity that sponsors, allows, or permits skateboarding, inline skating, or freestyle bicycling on its property is required to eliminate, alter, or control the inherent risks in these activities.

(b) While engaged in hazardous recreational activities, irrespective of where such activities occur, a participant is responsible for doing all of the following:

- (1) Acting within the limits of his or her ability and the purpose and design of the equipment used.
- (2) Maintaining control of his or her person and the equipment used.
- (3) Refraining from acting in any manner that may cause or contribute to death or injury of himself or herself or other persons.

(c) Failure to comply with the requirement of subsection (b) of this section constitutes negligence. (2003-334, s. 1.)

§ 99E-25. Liability of governmental entities.

(a) This section does not grant authority or permission for a person to engage in hazardous recreational activities on property owned or controlled by a governmental entity unless such governmental entity has specifically designated such area for these activities.

(b) No governmental entity or public employee who has complied with G.S. 99E-23 shall be liable to any person who voluntarily participates in hazardous recreation activities for any damage or injury to property or persons that arises out of a person's participation in the activity and that takes place in an area designated for the activity.

(c) This section does not limit liability that would otherwise exist for any of the following:

- (1) The failure of the governmental entity or public employee to guard against or warn of a dangerous condition of which a participant does not have and cannot reasonably be expected to have had notice.
- (2) An act of gross negligence by the governmental entity or public employee that is the proximate cause of the injury.

(d) Nothing in this section creates a duty of care or basis of liability for death, personal injury, or damage to personal property. Nothing in this section shall be deemed to be a waiver of sovereign immunity under any circumstances.

(e) Nothing in this section limits the liability of an independent concessionaire or any person or organization other than a governmental entity or public employee, whether or not the person or organization has a contractual relationship with a governmental entity to use the public property, for injuries or damages suffered in any case as a result of the operation of equipment for hazardous recreational activities on public property by the concessionaire, person, or organization.

(f) The fact that a governmental entity carries insurance that covers any activity subject to this Article does not constitute a waiver of the liability limits under this section, regardless of the existence or limits of the coverage. (2003-334, s. 1.)
