DESIGN CONCEPT

CLARKNEXSEN

**CONCEPT:
ASPIRATIONS**

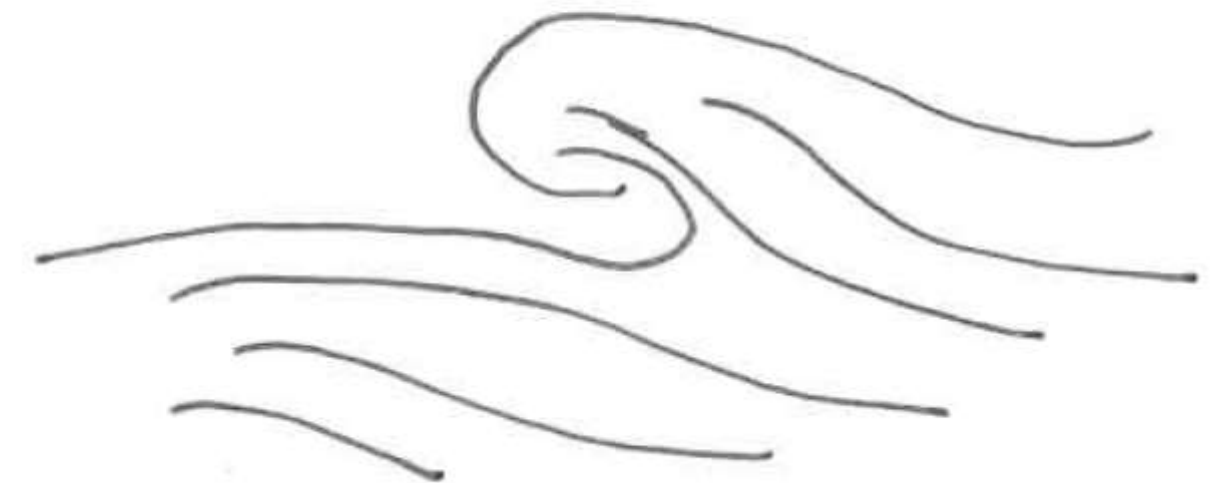

Guiding principles for the character
and feel of the building.

CONCEPT: WAVES

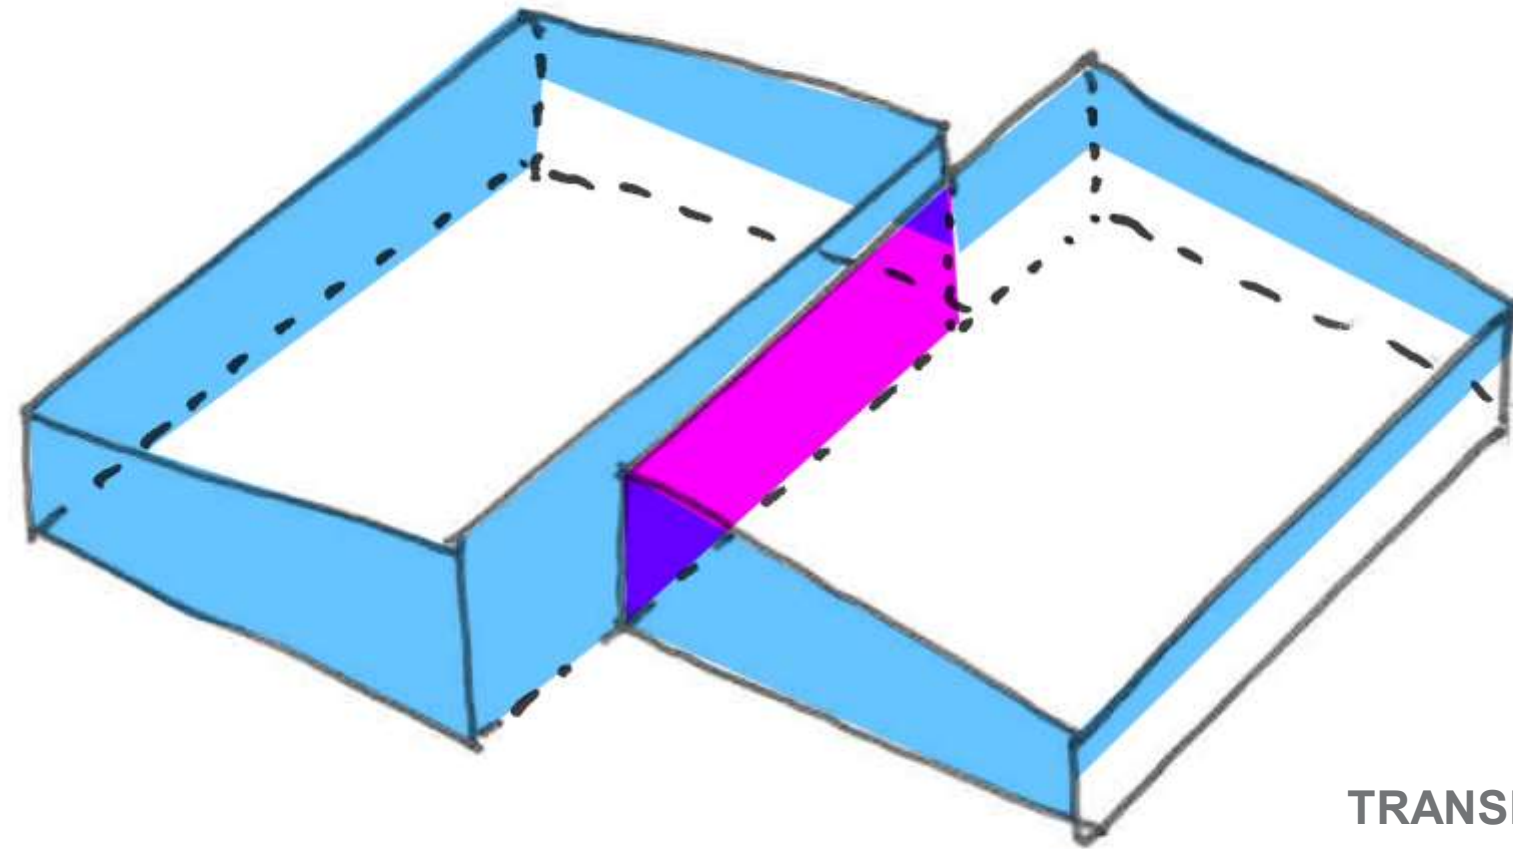

Could the meeting of the 2 pool spaces have the dynamic quality of moving and cresting water? Transparency, reflection and quality of light inside the wave offer possibilities for design with daylight and view connections.

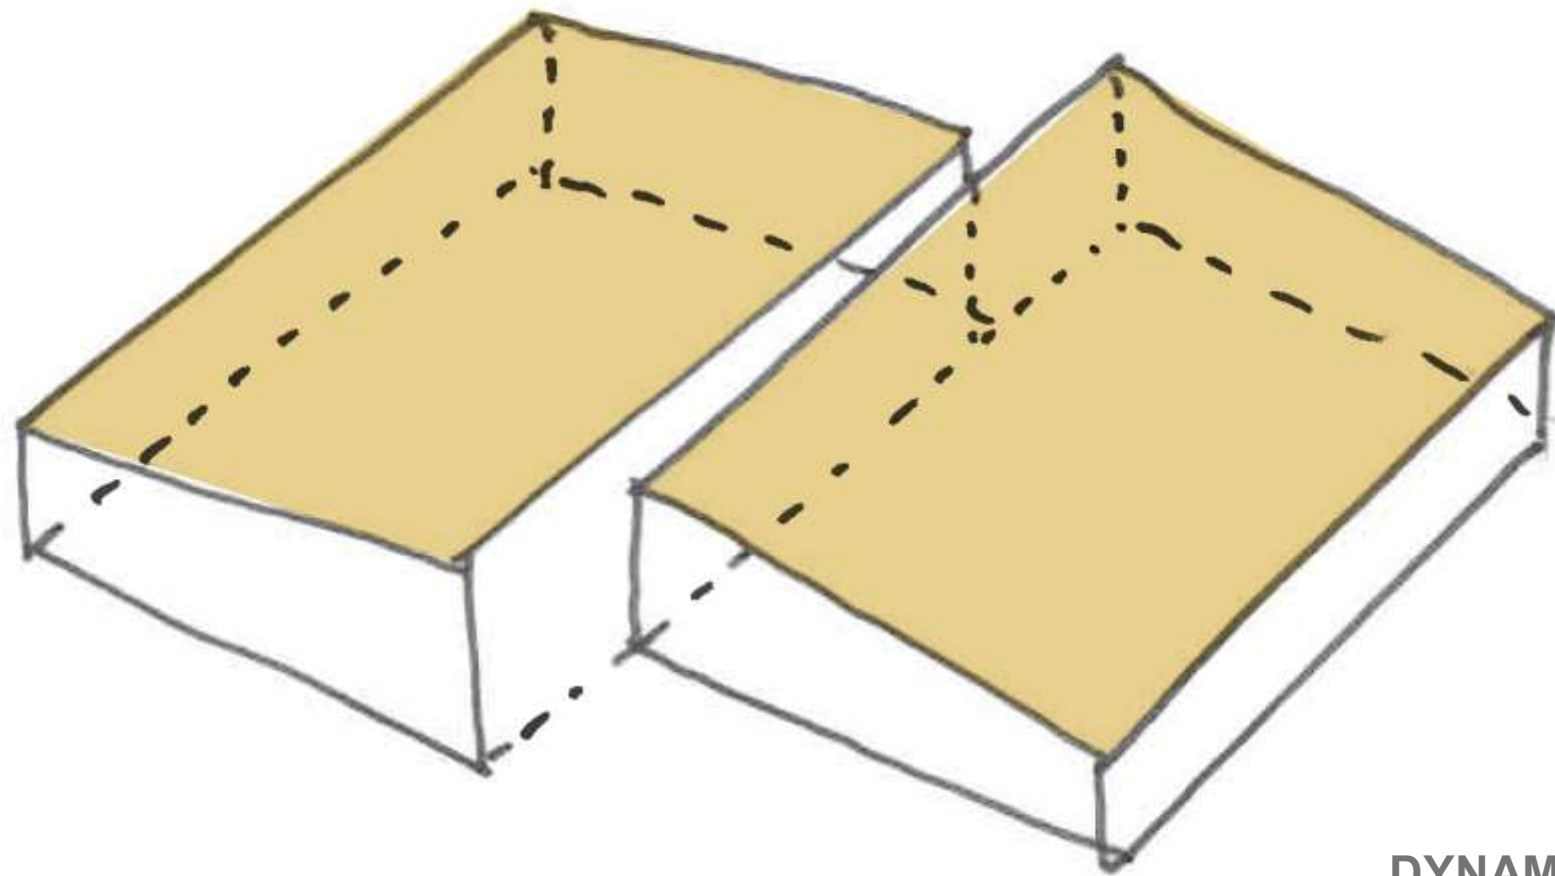

CLARKNEXSEN

CONCEPT:
WAVES

TRANSPARENCY AND VIEWS

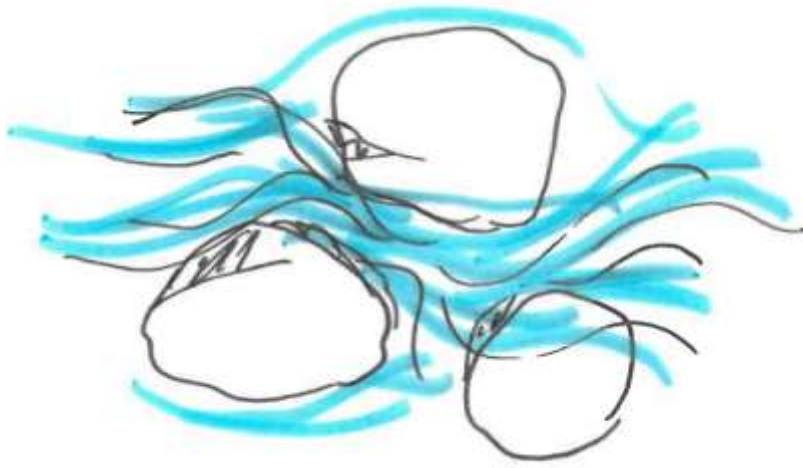

DYNAMIC ROOF PLANES

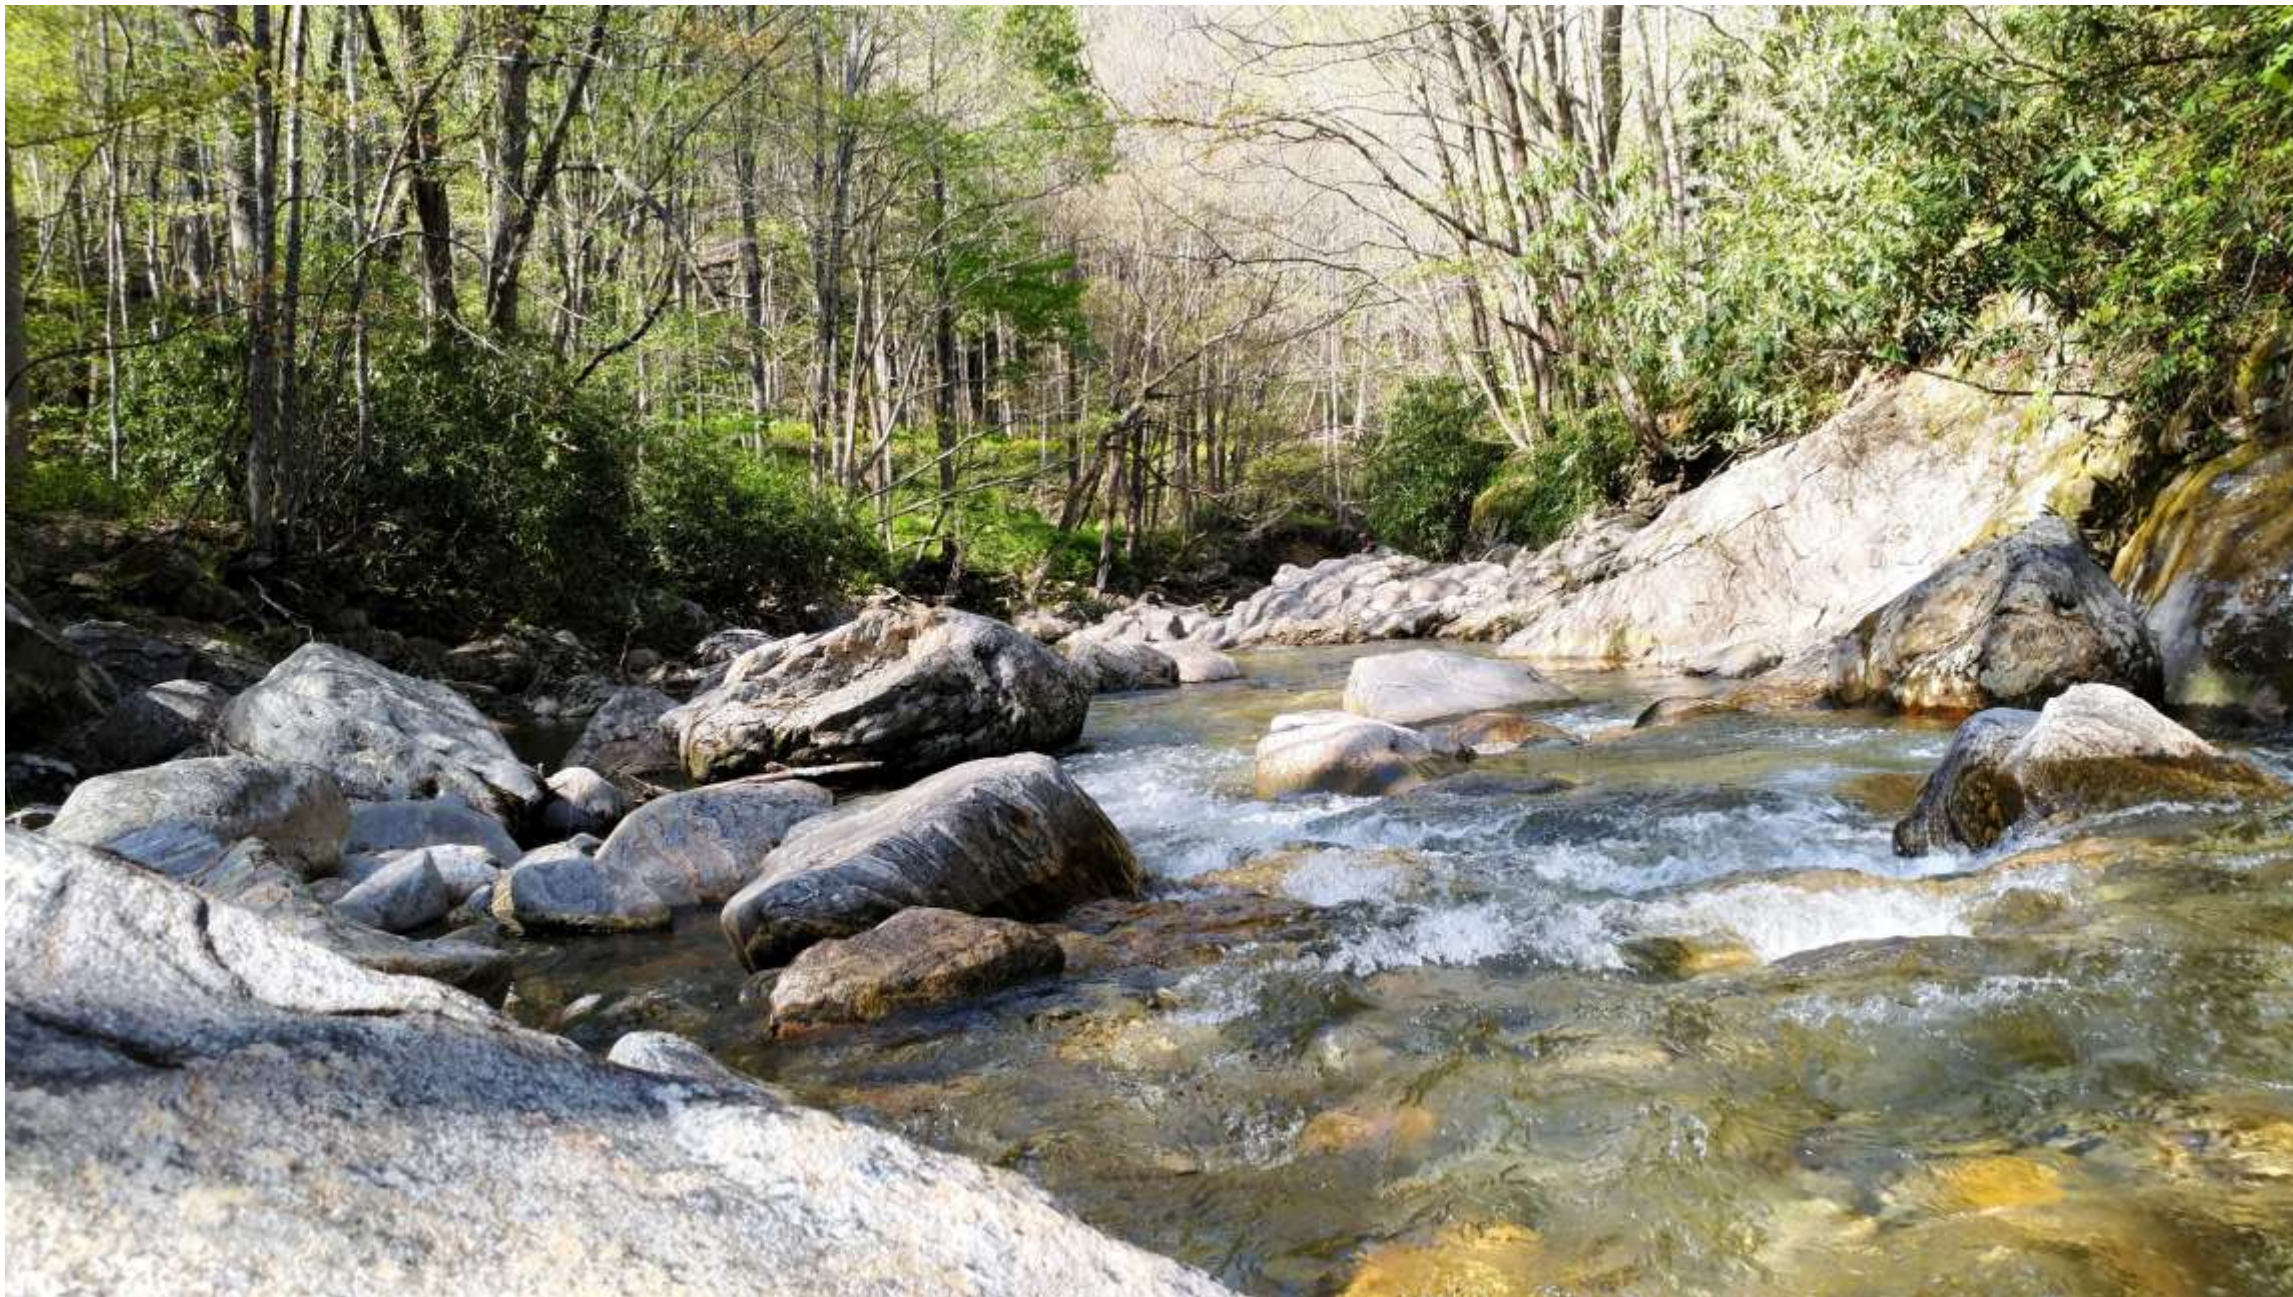

CLARKNEXSEN

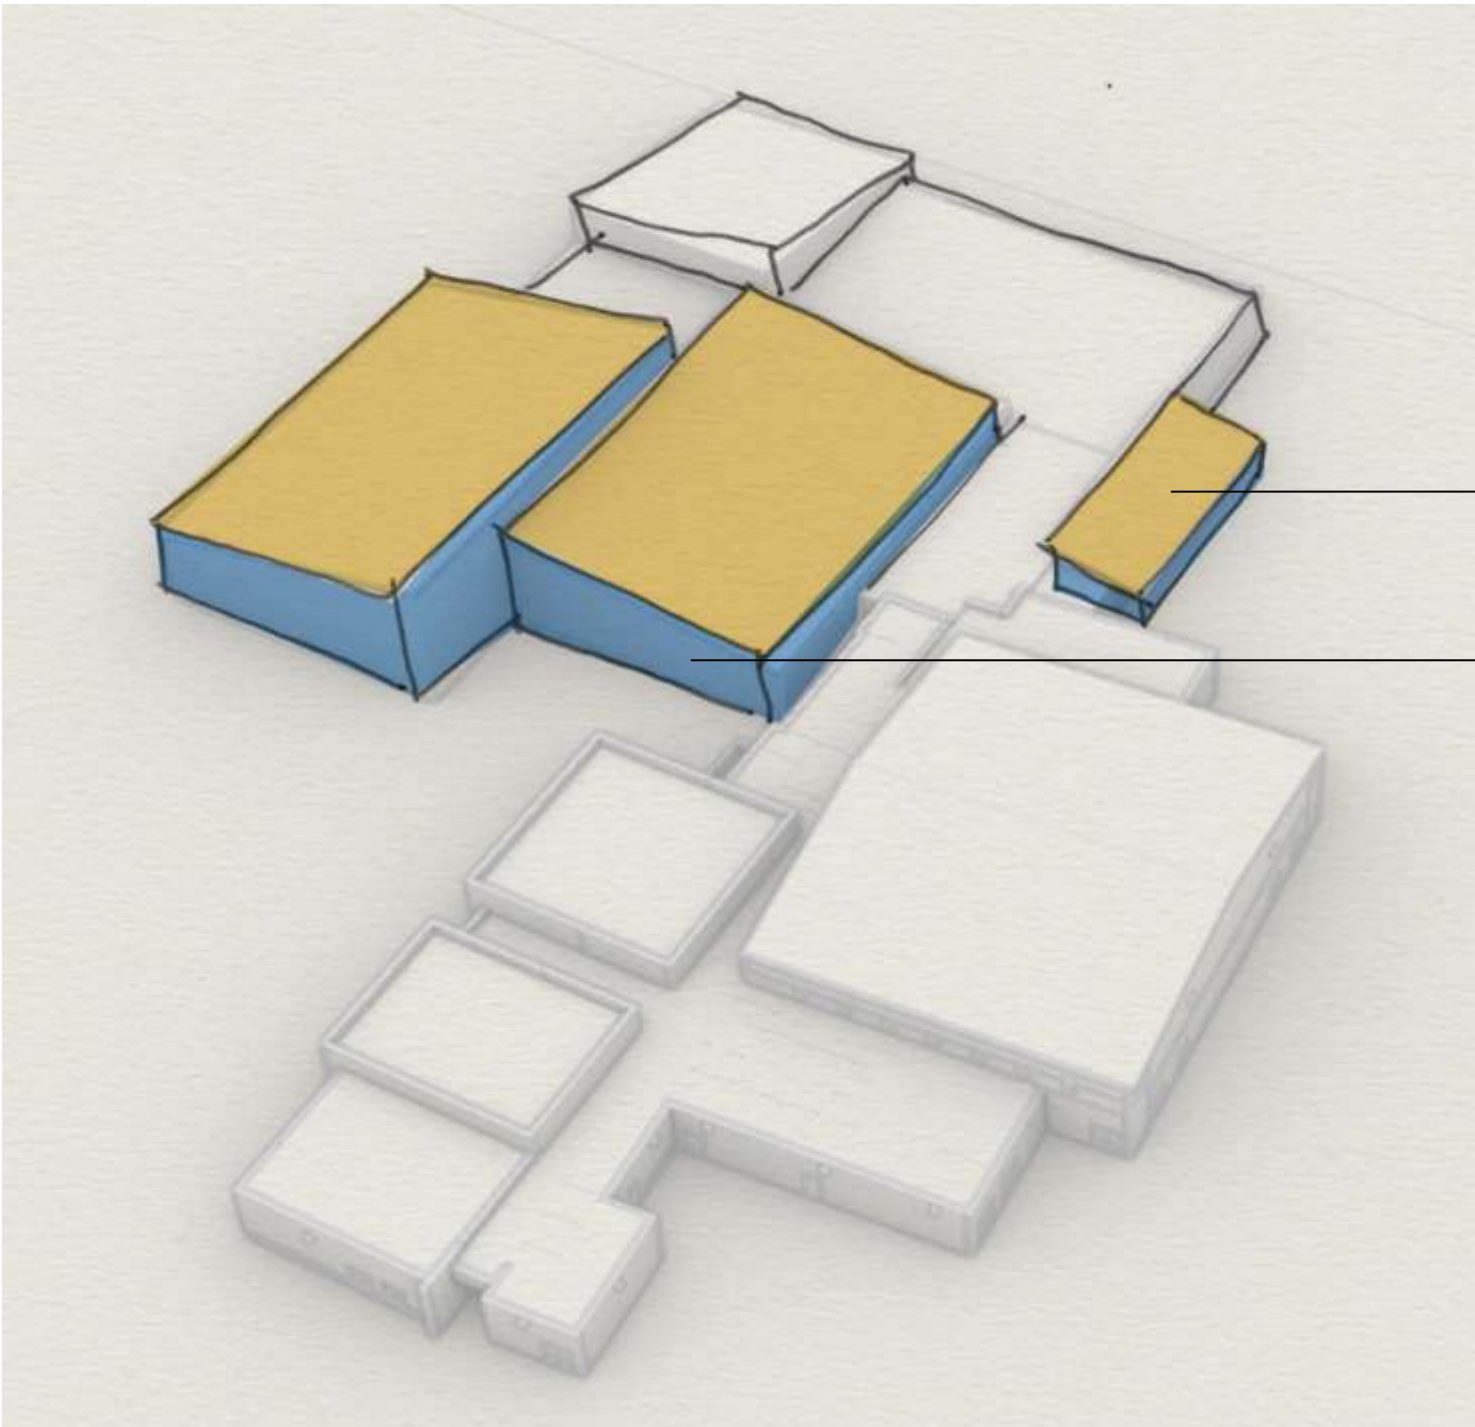

CONCEPT:
WATER IN THE MOUNTAINS

Water in the sloped mountain areas with turbulent and dynamic flow through rocks and embedded within the forest.
