Mr. Wooten

The Sheriff asked me to reply to this message. I have been in training today with Darlene in Hickory, sorry for the delay. The overtime policy we created has some modifications to be made and is under current review with Smith Rogers Law Firm regarding FLSA. The proposed policy was not just as simple as making a policy about paid overtime. The policy includes a rewrite of our existing policy which covers all FLSA issues for law enforcement. As soon as we get the final copy in hand we will get it up.

Subject: Overtime Policy

Chip,

The Commissioners are scheduled to discuss the proposed overtime policy for the Sheriff's department at their work session on June 16th. Can you send me a copy of the proposed policy so I can include it with the agenda materials that will be distributed to the Commissioners later today or tomorrow? I believe you also indicated that you planned to take the last six months and evaluate how the overtime funds would be allocated based upon the policy that you are developing.

Thanks
Chuck
