

Pedestrian Safety

Sidewalks provide many benefits:

- Safety- consumers feel safer having a protected walkway
- Mobility- they enable consumers to move easily and directly
- Healthier communities- they generate exercise and contribute to mental well-being
- More productive- they make it easier to get around
- Increased sales- they encourage people to walk and browse
- Reduce vehicle accidents
- Curbs protect pedestrians from vehicles
- Drainage is managed
- Increase the number of trips made while walking
- Make motorist operations safer and capacity increased
